2017 - 2021

Experience

Freelancing & Volunteering

2017 - Current

- Helped local animal shelter with taking care of stray cats and dogs, especially cleaning cages and feeding animals;
- Created multiple websites during my courses. Some examples are: online shops, minigames, digital timer, BMI calculator, to-do app and more. I also created a website about Formula 1 for a friend;
- Completed three courses: Introduction in IT(online), Front-End Developing (online) and ECDL (during High School);
- Makeup artist for weddings and other events;
- Volunteered at school activities with making decorations for stage performances and planting flowers inside the high school yard;
- Collected litter from all around my city and sorted it;
